ELA Press Release

— ELA Container Offshore GmbH will be exhibiting at the ICOE 2018

From 12 until 14 June 2018, ELA Container Offshore GmbH will be exhibiting at the ICOE 2018, the International Conference on Ocean Energy. The ICOE takes place in Cherbourg, Normandy (France) in La Cité de la Mer.

At booth #CD326, ELA Container Offshore will be exhibiting an ELA Offshore Accommodation Container Type: PREMIUM. "The visitors can get an impression of the requirements of an offshore container, in this case especially a living unit. The premium type has a high comfort through an interior corridor. It makes a movement between modules without leaving the complex possible.", says Mareike Müller, ELA-Offshore Marketing. This "dry sock" movement is particularly important in larger accommodation facilities where additional services are integrated, such as office areas, meeting rooms and / or galleys. The interior corridor will allow crew to navigate the accommodation block without going onto deck thereby reducing risk, increasing comfort levels and facilitating socializing amongst crew.

The ICOE is an international event dedicated to the industrial development of the ocean energy. In 2018 ELA Container Offshore GmbH will be represented by Mr. Hans Gatzemeier, Managing Director of ELA Container Offshore GmbH, Mr. Seif El Guindy, Business Development Manager of France and Mr. Frank ter Haak, Business Development Manager of Netherlands & Belgium. "Since we are a provider of modular accommodation solutions for the offshore wind platforms and supply vessels, we see that France is the upcoming offshore wind market in the EU region. ICOE gives us the chance to promote our solutions and to be visible to key decision makers and stakeholders in the sector. We believe that showcasing our product will make our current and future clients have a better understanding of our various solutions. The saying goes that "a picture is worth a thousand words". We believe that presenting our Premium Container is worth a thousand pictures!", according to Seif El Guindy.

The ELA Container Offshore GmbH will exhibit for the first time at the ICOE 2018. "It is a fantastic event bringing many stakeholders from multiple marine energy sectors. This makes it ideal for us to further expand our network and outreach.", so Seif El Guindy continues.

All interested parties, customers and business partners are very welcome at the booth of the ELA Container Offshore GmbH and we look forward to interesting conversations!

ELA Container Offshore has already gained diverse experience in the Offshore-Wind and Offshore Oil & Gas Industry. Whether on pontoons, transformer platforms, rigs or supply vessels - ELA Container is the ideal partner, offering tailor-made concepts for all requirements in the form of Living Quarters, Offices, Dining Rooms, Galleys, Laundries, Recreation or Locker Rooms and all types of Carrying Units. ELA Offshore containers are equipped with all the necessary utilities. This guarantees, in combination with all ELA Offshore features, a long service life, functionality and comfort.

The high quality Containers are "Made in Germany" according to German quality standards and possess all necessary certifications such as DNV 2.7-1 / EN 12079-1, DNV 2.7-2, based on SOLAS, IMO FSS Code and MLC as well as CSC and are approved from several IACS-companies. In terms of fire resistance, an A60 insulation provides high safety standards. Every

ela[container]

container will be checked before delivery. Depending on customer requirements, ELA Offshore Containers are individually customized, immediately operational and are available at short notice.

The main features of ELA offshore accommodations include:

- Flexibility on demand
- One base type with various accommodation solutions
- Easy handling thanks to standard 20ft High-Cube ISO standard dimensions
- Highest quality standards
