Scope of Products and Services

Offshore Accommodation

Company introduction

550 employees. More than 40 years of experience. Active at 12 locations across Europe. ELA Container is the specialist for mobile room solutions in container form. A second-generation family-owned company founded in 1972, the rental service for mobile rooms and the container technology have been the object of continuous further development with new ideas ever since. Today the ELA container park encompasses more than 22,000 rental containers in many different versions along with a variety of accessories.

ELA Container Offshore GmbH was established in 2014 as a response to the special needs of the offshore industry. By developing a system of standardized modules based on DNV 2.7-1 / 2.7-2 / 2.7-3 and CSC approved offshore containers, ELA Container Offshore can provide bespoke accommodation solutions for all non-hazardous areas onboard all kinds of platforms, barges and supply vessels.

Dedicated to providing the whole offshore industry with temporary accommodation solutions for rent, ELA Container Offshore owns and operates a fleet of accommodation modules, living quarters and a range of offshore cargo carrying units (CCU's).

Next to the wide selection of standard modules, we are happy to design and manufacture custom-built units to meet your requirements. All custom modules can be provided including any approval or certification you may require. This includes ATEX or EX zone 1 and 2 certified modules to allow installation in hazardous areas.

Our system allows you to add a wide variety of rooms onto existing vessels, without the need for major technical modifications to the vessels. Ranging from office areas and conference rooms to living quarters and sanitary facilities and anything in between, our modules can be used to add functionalities quickly and cost-effectively. In addition to these off-the-shelf modules, we can also provide more specialist solutions such as ROV control rooms, Electrical Power Units (EPU), Hydraulic Power Units (HPU) and water treatment facilities, to name a few.

Our mission: being a reliable and powerful partner for our clients with standardized and customized offshore container solutions. Apart from our high quality products „Made in Germany“, we offer worldwide turnkey assembly, delivery and customer service.

Hans Gatzemeier
Managing Director of ELA Container Offshore GmbH

20 ft ELA Offshore Accommodation Container

Type: **ALLROUNDER**

for good comfort

Brief description

The 20 ft ELA Offshore ALLROUNDER Container is designed for all non-hazardous areas onboard any offshore vessel or structure. Highly suitable for stand-alone use, this module combines a minimal footprint with a wide variety of floorplans, resulting in maximum versatility. By using the ELA Offshore Accessories, these modules can easily be combined to create larger installations too. Low weight, ISO dimensions and “plug & play” design allow quick installation and immediate use.

Features

- + Certified according to DNV 2.7-1 / EN 12079-1, DNV 2.7-2, based on SOLAS, IMO FSS Code and MLC, ISO-Norm-R-668, High Cube, CSC
- + Dimensions:
L 6058 mm x W 2438 mm x H 2896 mm
L 20 ft. x W 8 ft. x H 9 ft. 6 in
- + Tare weight: 7.7 t / 16,976 lbs.

20 ft ELA Offshore Accommodation Container

Type: **PREMIUM**

for high comfort

Brief description

The 20 ft ELA Offshore PREMIUM Container is designed for all non-hazardous areas onboard any offshore vessel or structure. Although suitable for stand-alone use, the PREMIUM module is particularly useful in larger installations. The internal corridor allows movement between modules without leaving the complex. As the modules can be stacked without gangways, multi-level installations can be mobilized on any standard 20'/40' ISO twist lock arrangements quickly and without modifications.

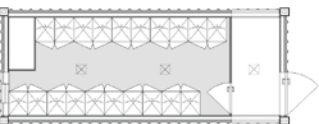

Features

- + Certified according to DNV 2.7-1 / EN 12079-1, DNV 2.7-2, based on SOLAS, IMO FSS Code and MLC, ISO-Norm-R-668, High Cube, CSC

33 ft ELA Offshore Accommodation Container

Type: **PREMIUM PLUS**

for highest comfort

Brief description

The 33 ft ELA Offshore PREMIUM PLUS Container is designed for use in non-hazardous areas onboard platforms, rigs and any type of vessel. The internal corridor that allows movement between modules without physically leaving the installation, combined with the spacious cabins on either side, make the module extremely suitable for creating large offshore accommodation modules offering premium comfort levels. Low weight and “plug & play” design allow quick installation and immediate use.

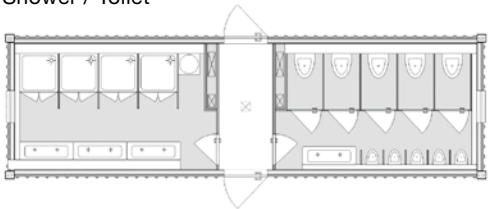

Features

- + Certified according to DNV 2.7-3, High Cube
